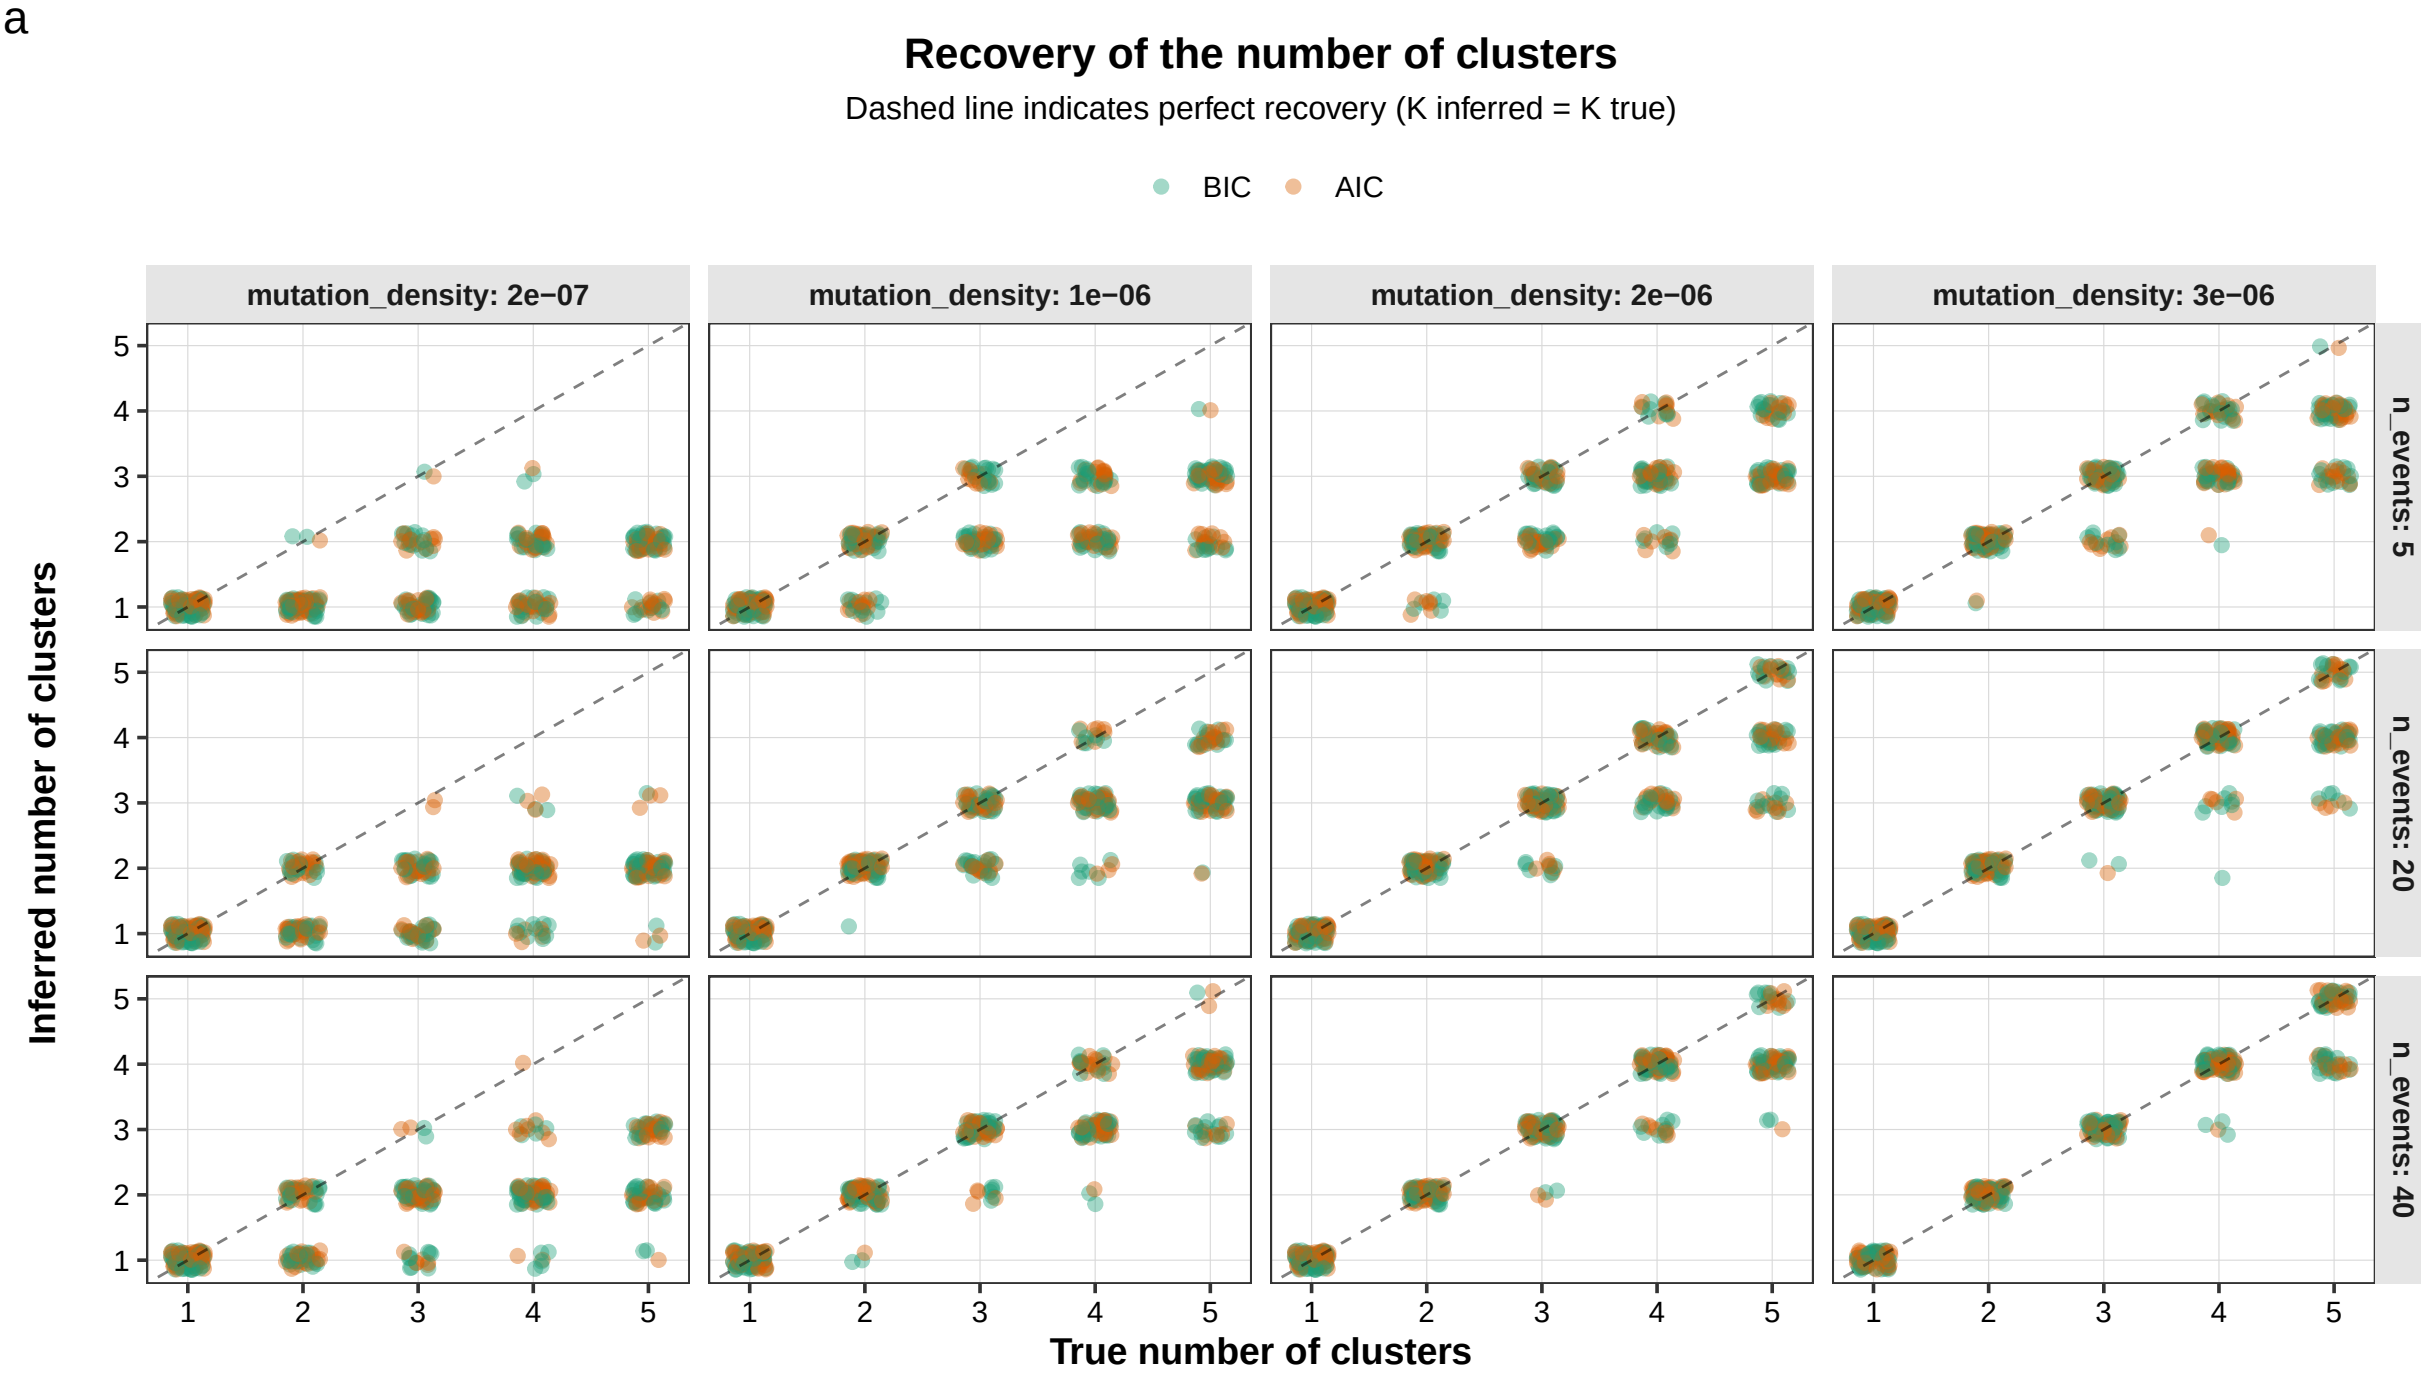
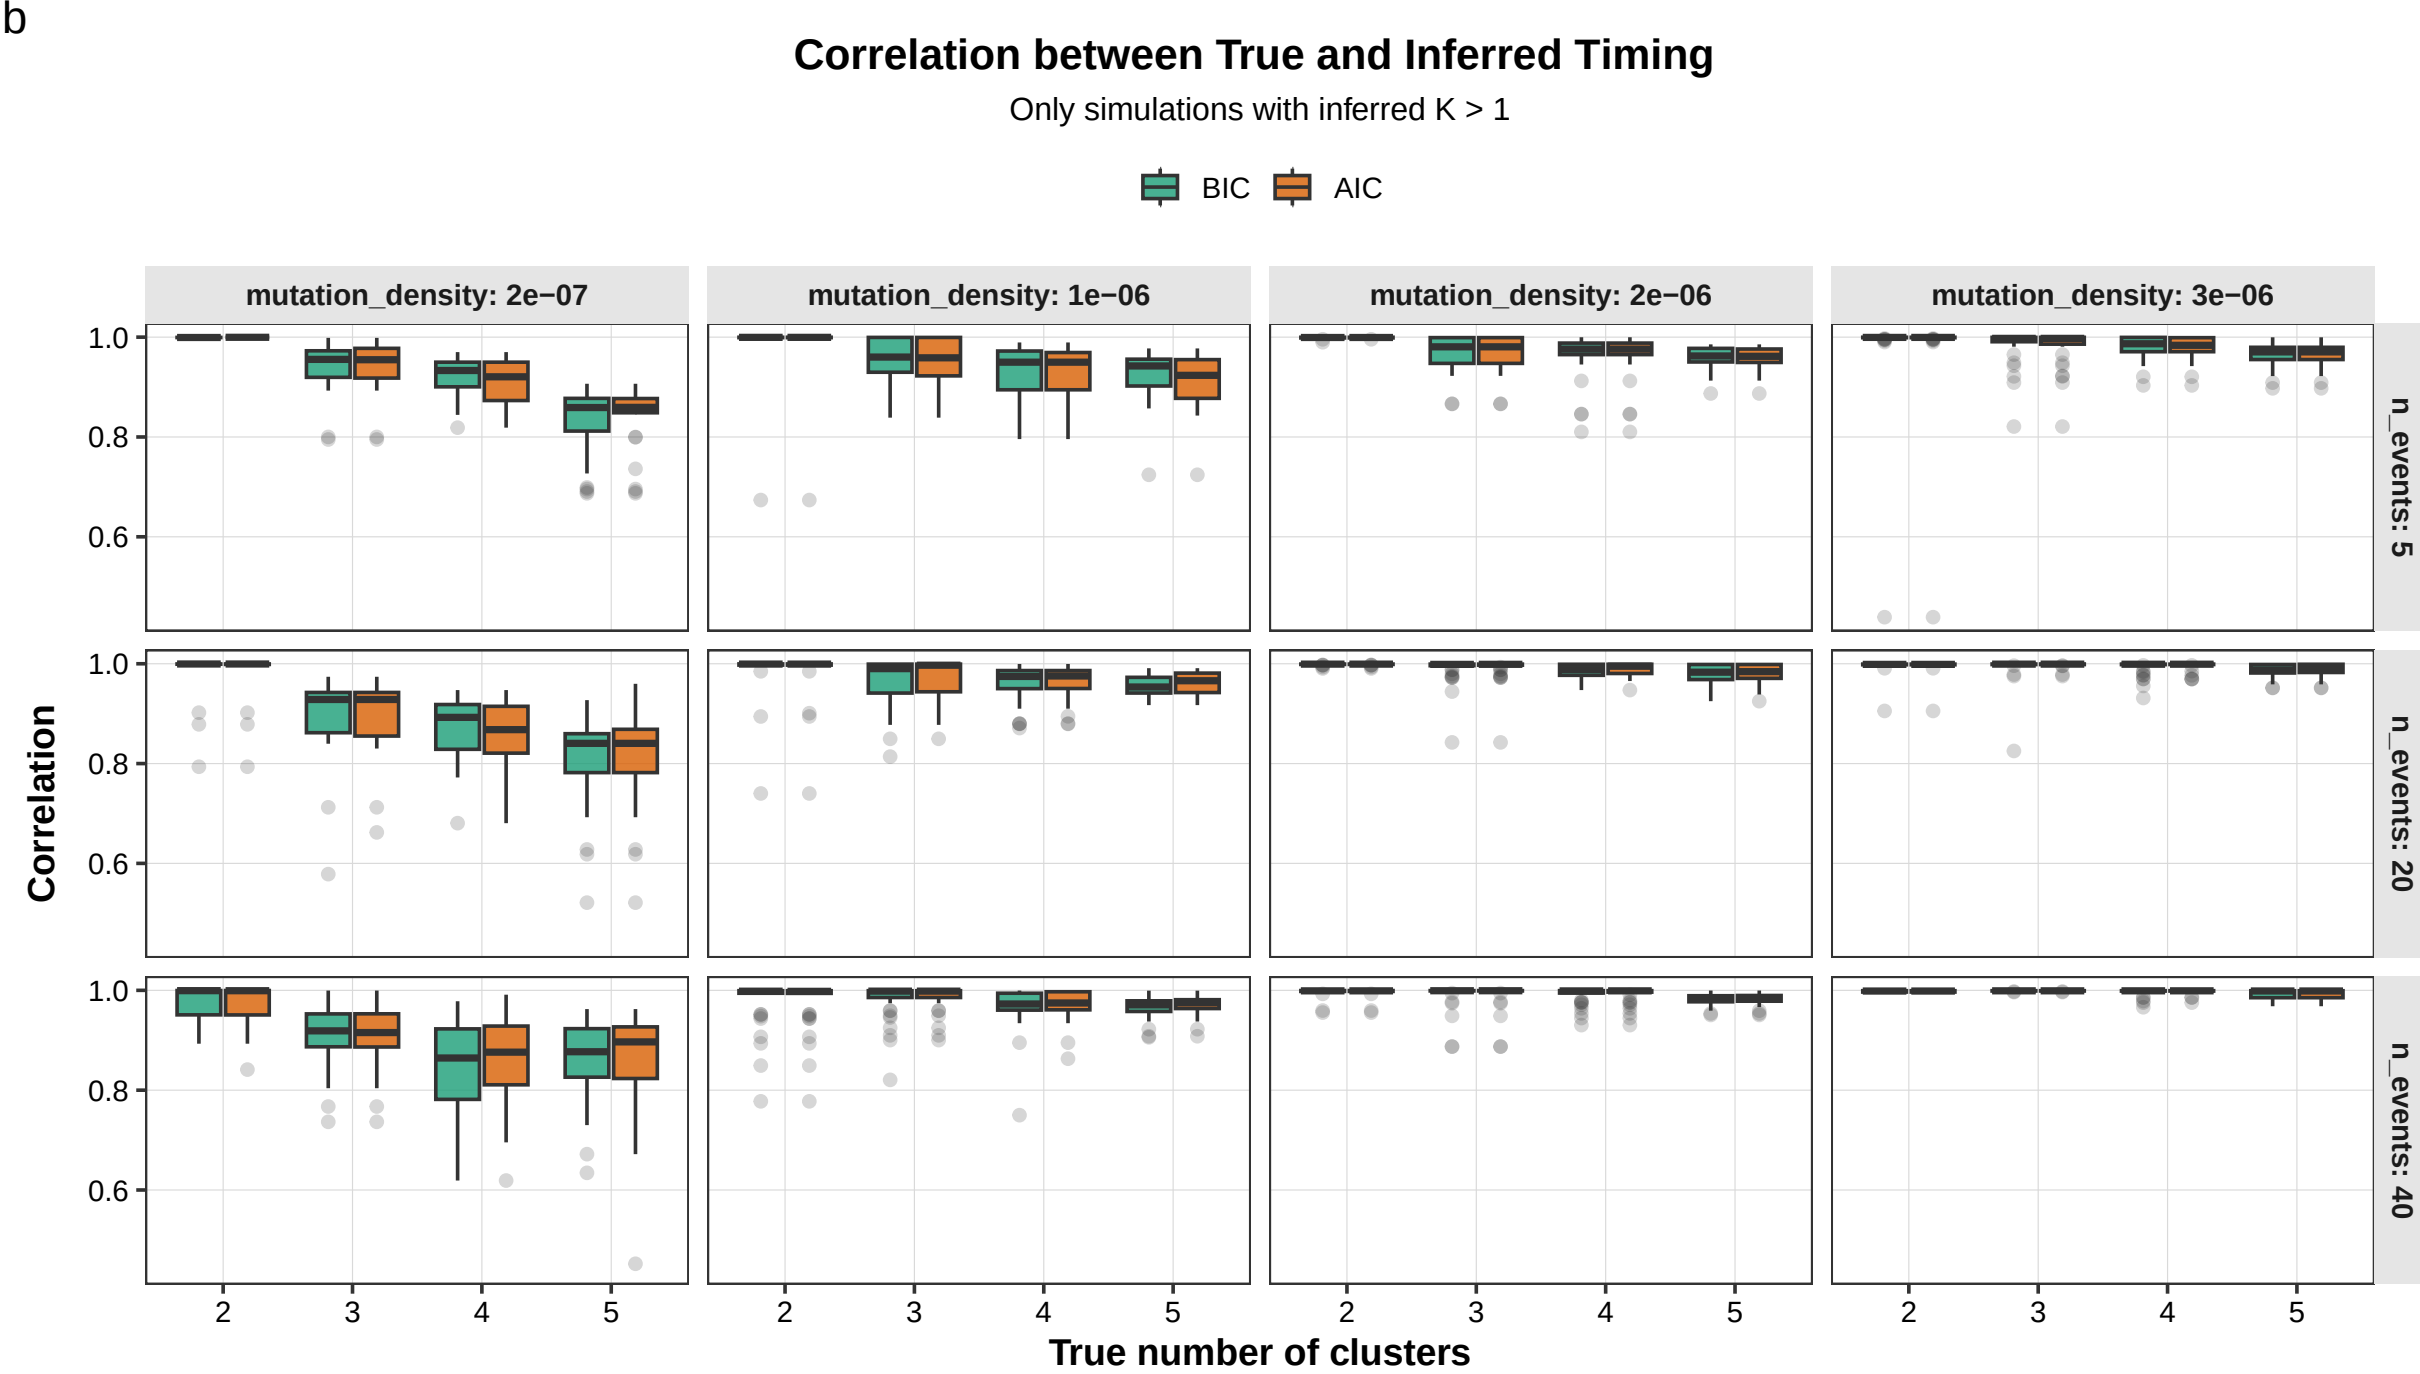
a



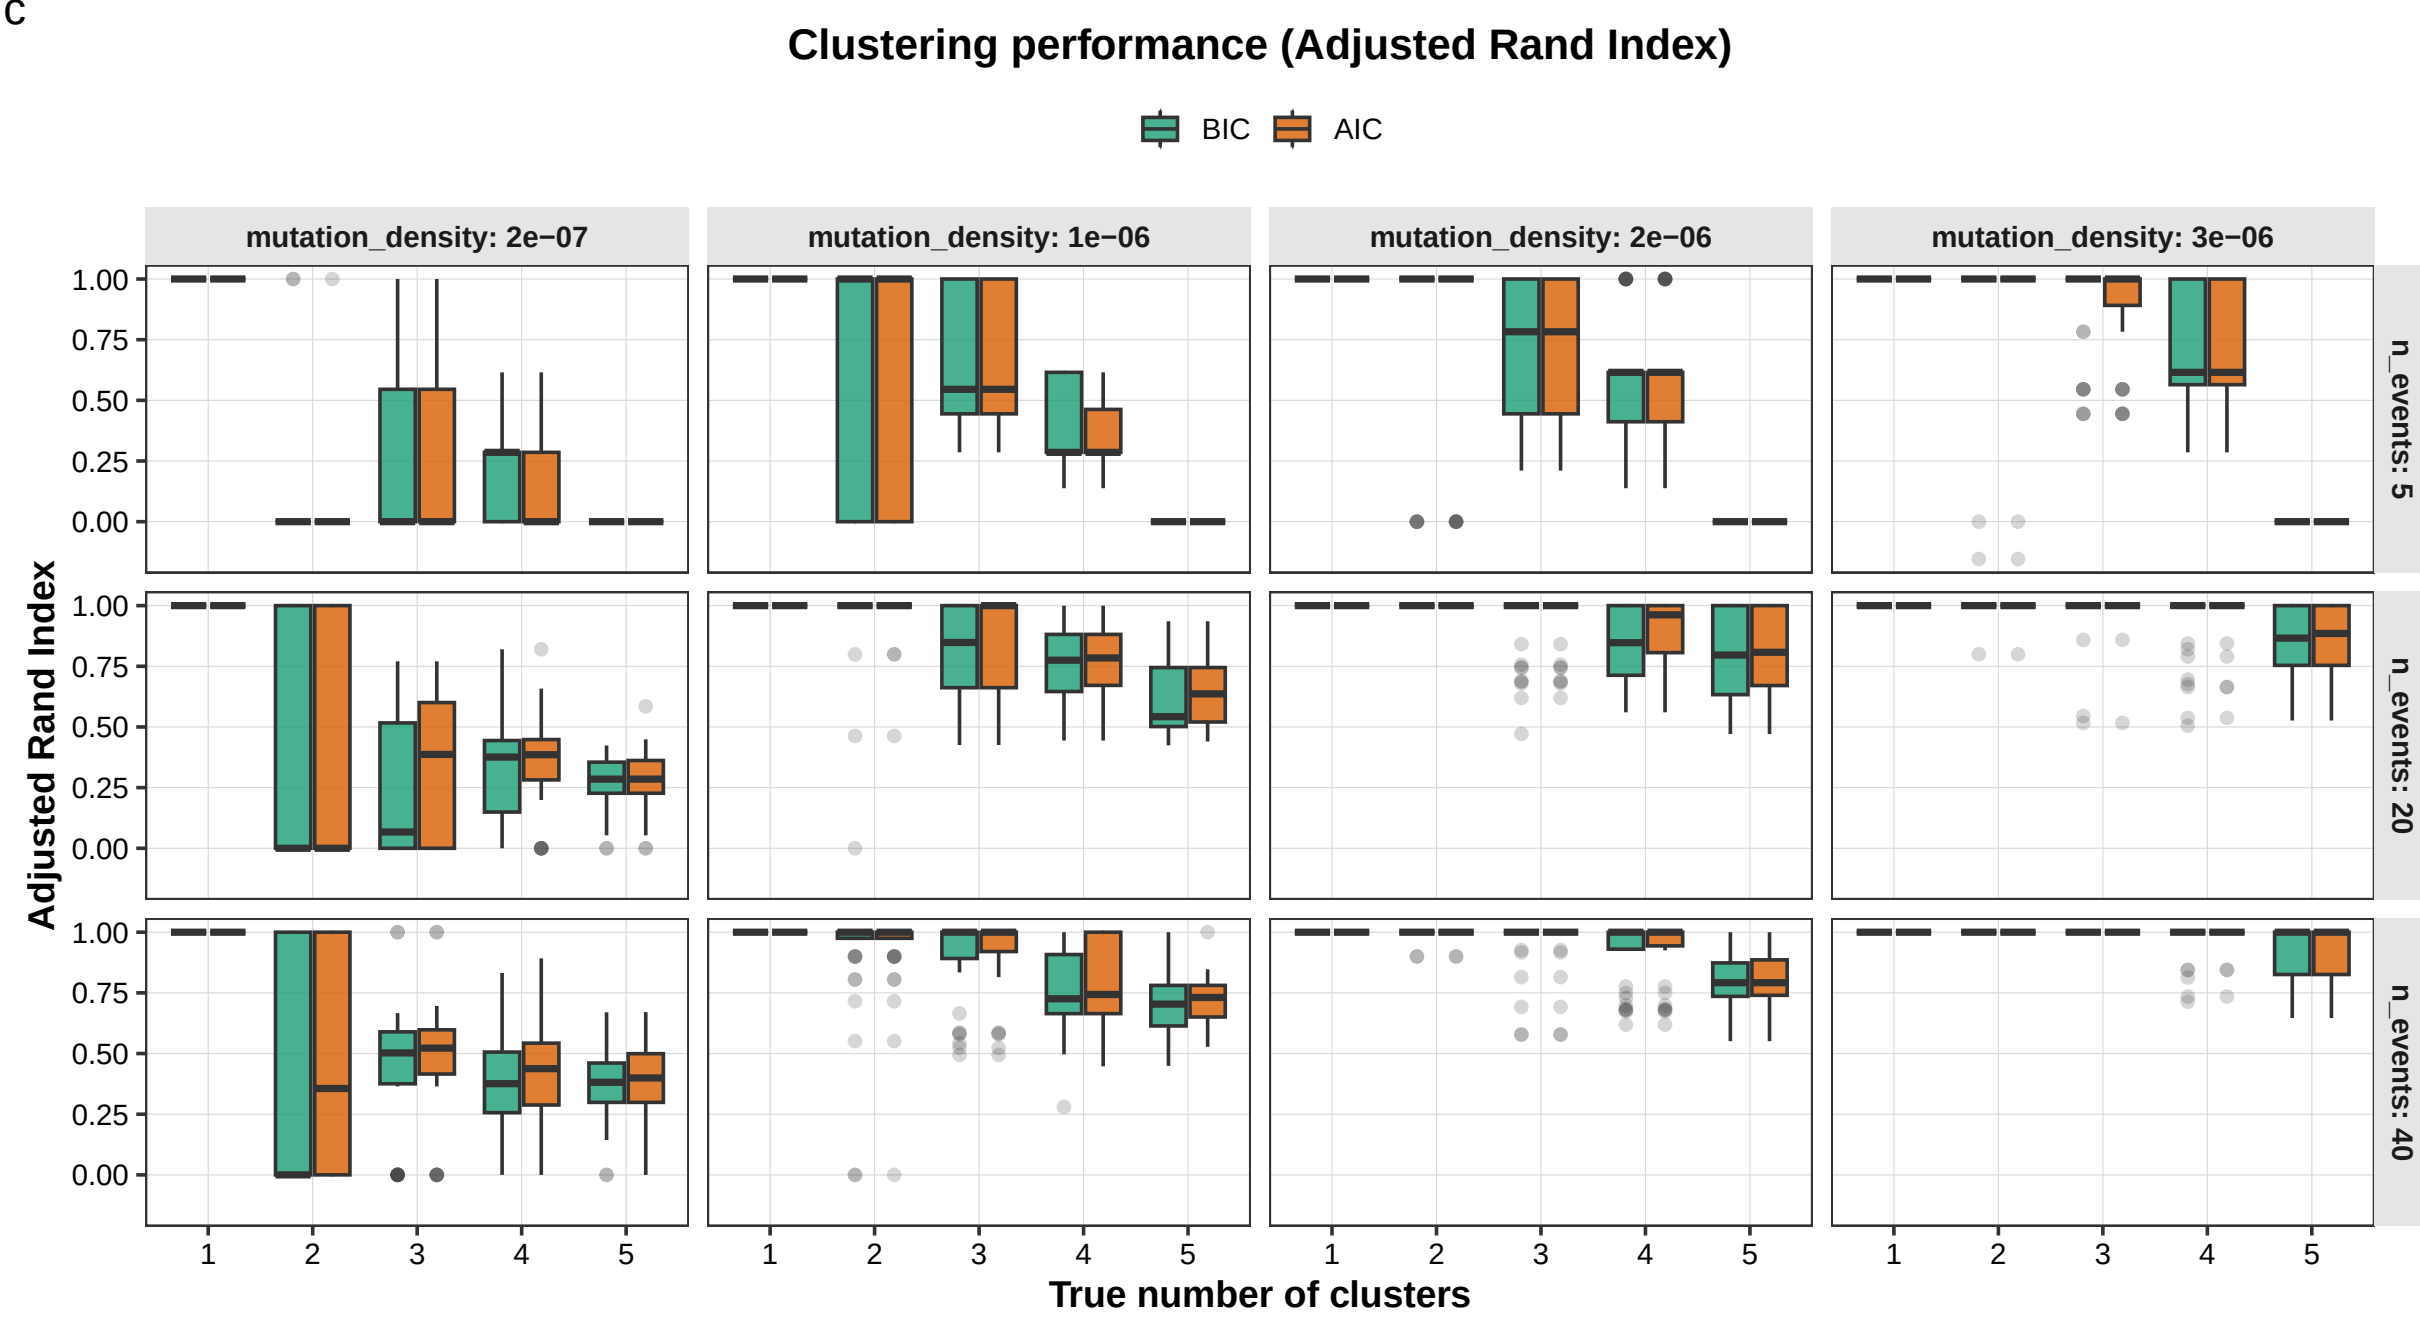
Recovery of the number of clusters
Dashed line indicates perfect recovery (K inferred = K true)
BIC
AIC
mutation_density: 2e−07
mutation_density: 1e−06
mutation_density: 2e−06
mutation_density: 3e−06
n_events: 5
n_events: 20
n_events: 40
Inferred number of clusters
True number of clusters

b



Correlation between True and Inferred Timing
Only simulations with inferred K > 1
BIC
AIC
mutation_density: 2e−07
mutation_density: 1e−06
mutation_density: 2e−06
mutation_density: 3e−06
n_events: 5
n_events: 20
n_events: 40
Correlation
True number of clusters

c



Clustering performance (Adjusted Rand Index)
BIC
AIC
mutation_density: 2e−07
mutation_density: 1e−06
mutation_density: 2e−06
mutation_density: 3e−06
n_events: 5
n_events: 20
n_events: 40
Adjusted Rand Index
True number of clusters
